Benefit from more than 20 years of experience

GLS Logistik is a leading and innovative wholesale and service company in the German and European dental industry. We support our affiliated depots by fulfilling the discerning requirements of the dentists, dental laboratories, clinics and hospitals. We provide our customers with all consumable and disposable materials for dentistry, dental technology and dental medicine from our warehouses in Kassel. Through our intensive and successful cooperation with our national and international partners in industry and trade, we are able to offer all benefits of a central and bundled procurement of more than 125,000 different products. Our customers can profit from our experience in the realization and optimization of our purchasing and logistics processes which helps them to develop new market opportunities.

Facts and Figures

Facts and Figures

Logistical services at the highest level

Our objective is to process every order on the same day to ensure on-time delivery to all customers. At the same time we strive to be the market leader in the area of part availability as well as in the accuracy of the order processing.

Partners and Expertise

Excellent service needs strong partners

The constant adaption to customer needs, innovative ideas and a distinct awareness of costs create the foundation for an existence based on partnerships in the national and international markets. Therefore we cooperate with numerous major suppliers.
